

(Spring 1955)

1953-1954 WHOLESALE PRICE LIST : SO. CALIFORNIA NATIVE SEEDS.

Collector-Distributor: Elsie W. Cisler, 1777 Morena Blvd., San Diego 10.

NOTE: Where price and quantity are not shown, items are subject to current crop and collection. Perishable types, such as Pinus Parryana and all Quercus species, must be ordered at once, to allow time for prompt shipping. Every effort is made to furnish high quality, viable seeds true to name. All larger kinds are tested.

In addition to this briefer list, seed of practically every native found in San Diego County, and adjacent Riverside and Imperial Counties, may be obtained in varying amounts, according to available supply. Send your definite want list for quotations on seed of annuals, perennials, and other trees or shrubs not itemized. The few non-natives are marked "nn". Cactus & Succulent list is separate. *Mixtures on order*

TERMS: Cash with order for all new customers; others within 30 days. Postage is extra and included in statements. Trade packets are usually 50¢.
